The politicians and generals want to throw our sons and daughters into war. They've got 600,000 Ukrainians killed already; now they're SO short of men that they're dragging thousands of young women into mud, blood and death.

But the warmongers need more human meat for wars in Ukraine and the Middle East. It's the same old bloody story – from the Somme to Ukraine, from Vietnam to Iraq and Afghanistan – war means big profits for the arms corporations, but mutilation and death for those at the front.

We need to start building mass opposition to conscription NOW. The first step is to design, print and distribute 100,000 hard hitting leaflets. We

must warn the public of the danger and make the case against conscription.

Can you chip in to help us start this vital campaign for peace and against conscription? Chip in and help save our sons, daughters and fathers from the globalist meat-grinder!

We Need 100,000 Leaflets Printed to Stop Conscription - We've got to STOP them dragging our people to war

It'll be too late to stop conscription once those corrupt and stupid old fools manage to drag us into the wars they've already started. We have to build the anti-conscription movement NOW!

Chip-in NOW! Help us get into print and into action against the globalist warmongers!
